

There are different ways you can get help with your investments. You should carefully consider which types of accounts and services are right for you. This document provides a summary of the types of services we provide and how they are paid for. Questions you might consider asking us are noted (➔) throughout this Summary.

Introduction

Bell Investment Advisors is an SEC registered investment adviser that has provided investment management services to retail investors since 1991. We do not provide services as a broker-dealer. There are differences between investment advisers and broker-dealers, and it is important for you to understand them as you decide what kind of account is right for you. You can learn more about the differences between investment advisers and broker-dealers at the websites provided by the SEC like <https://www.investor.gov> and <https://www.investor.gov/crs>.

What Investment Services and Advice Can You Provide Me?

Investment Management Services: If you request investment management services, we will:

- Tailor an investment approach for you that reflects your age, income, family circumstances, financial condition, retirement goals, investment goals, and your risk tolerance.
- Conduct periodic reviews of your goals and asset allocation in response to changes in the above factors.
- Provide ongoing monitoring of your investment accounts.
- Monitor market, economic, and geo-political trends.
- Review relevant financial industry research on a routine basis.
- Buy and sell securities for your accounts that are consistent with your financial goals and risk tolerance.
- We will do so on a “discretionary” basis that authorizes us to trade without your approval of each trade. We may make an exception and advise you on a “non-discretionary” basis for designated assets whereby we would make investment recommendations to you and allow you to make the decisions as to which securities to buy or sell.

Our Firm imposes a minimum account size requirement of \$500,000 for all new client relationships.

Financial Planning Services: If you request financial planning services and depending upon your needs, we will evaluate your financial condition and help you set financial goals and plan for retirement. Analyses may include retirement planning, real estate analysis, employer stock options analysis, education funding, insurance needs and gifting.

Additional detail about our services is provided in our Form ADV Part 2A at Item 4.

What Fees Will I Pay?

These are the principal types of fees you will pay to us in connection with our services:

- **Asset-Based Fees:** Investment management fees charged as a percentage of the value of the assets under our management. These are paid quarterly.
- **Fixed Fees:** Financial planning fees are billed on a fixed fee basis.

Our fees are negotiable and may vary amongst clients.

Other fees & costs you will pay to others in relation to your investments include:

- **Custodian fees.** If charged, these are paid to your custodian directly, on an annual or a monthly basis.
- **Maintenance fees.** If charged, these are paid to your custodian directly.

- Transactional and product-level fees (commissions). If charged, these are paid to your executing broker-dealer directly, at the time of each transaction.
- Fees related to mutual funds, exchange traded funds (ETFs), hedge funds, variable annuity products. Ongoing management fees, administrative fees and redemption or surrender fees are paid to the mutual fund, ETF or insurer that issues the fund or policy directly.

The fee any investment adviser charges reduces the value of your account when it is deducted each billing period. Please make sure you understand what fees and costs you are paying. You will pay the asset-based fee each period even if no securities are bought or sold in your account. You will pay fees and costs whether you make or lose money on your investments. Additional detail about our fees is in our Form ADV Part 2A, Item 5.

What Are Your Legal Obligations to Me When Acting as My Investment Adviser?

We have adopted an internal Code of Ethics. When we act as your investment adviser, we must act in your best interest and not put our interests ahead of yours. Where the interests of our Firm or staff conflict with our duties to you, we must work to eliminate the conflict or tell you about it in clear terms. You should understand these conflicts because they can affect the investment advice we provide you.

How Else Does Your Firm Make Money and What Conflicts of Interest Do You Have?

Here are examples to help you understand what this means:

- We charge fees for our services and the more assets there are in your account, the more you pay to us in fees. We therefore have an incentive to grow your assets and to encourage you to increase the assets in your account.
- We advise you to custody your investment accounts with Charles Schwab because it provides us with essential trading, reporting, compliance, education and back office services and investment research.
- Our employees personally invest in the same, or different securities based upon their personal financial situations and their investments may perform as well as, better or worse than our clients' investments.

How Do Your Financial Professionals Make Money?

Our financial professionals are paid a salary based upon their education, professional training, work background, tenure and the level of skill and dedication they exhibit in their work for the Firm. All staff participate in the Firm's bonus program in years in which bonuses are awarded. Financial professionals are given a target for generating new clients and those that are successful receive additional compensation.
